

# Bulk Registration File Specifications

2017-18 SCHOOL YEAR

## Summary of Changes

- ▶ Added new errors for Student ID and SSN

## Preparing Files for Upload (Option 1)

Follow these tips and the field-level specifications shown below to prepare a file for upload (note that contracts may have data requirements that differ from the standard specifications):

- ▶ All files submitted for bulk registration must be in MS Excel (Excel 97 or later) or Comma Separated Value (.csv) format.
- ▶ The first row of the file must contain the column headers in the order specified in the Field-Level Specifications section below, even if some fields are left blank.  
**Important:** Removal of column headers or changes to the column headers will prevent the file from processing successfully.
- ▶ Required fields are indicated in the Field-Level Specifications table below and in the template (Excel only).
- ▶ Files larger than 200 MB cannot be processed and need to be reduced. An add-on file may be submitted in order to upload all student registrations. A .csv file of 200 MB can contain up to two million records.
- ▶ Templates in MS Excel and .csv formats, with column headers populated, are available in the **Bulk Registration and Pre-ID Label tool**. You may create files from scratch or from the templates as long as they meet the specifications in this document.
- ▶ Sample files in MS Excel and .csv formats, with column headers and example data populated, are also available in the Bulk Registration tool.

- ▶ Files will be validated within 1 hour of upload to the Bulk Registration and Pre-ID Label tool but are frequently completed sooner. Files will be validated for correct column headers, columns in the correct order, required fields populated, and valid field values.

## What to Know if You're Using Clever (Option 2)—Revised

- ▶ If your district is using Clever to share information for purposes of bulk registration, you will not need to manually prepare a file for upload.
- ▶ You still need to upload, validate, review, and submit your request in Bulk Registration after sharing data in Clever.
- ▶ Refer to the 'If Using Clever' column in the specifications below for details on what data are shared with Bulk Registration from Clever.
- ▶ Be sure to note the following differences between uploading a file and using Clever:
  - › The following data are not available via Clever at this time:
    - Telephone Number
    - Free and Reduced Lunch
    - Social Security Number
    - Ethnicity
    - Race
    - Country Code
    - SAT Test Center
    - Sort Group
  - › If you would like these data included, you will need to add them to your request after it is uploaded in Bulk Registration. You can do this by downloading the file, editing as needed, and uploading it as a Replacement File in Bulk Registration.

RACE: WHITE	1	No	Y, y = Yes Blank = No Response	Student's Race Multiple Hispanic/Latino values may be provided per student.	Not available via Clever. If desired, add these data to your request after it is uploaded.
MAILING STREET ADDRESS	50	Yes for SAT No for PSAT 8/9, PSAT 10, PSAT/NMSQT	Alpha values (A–Z, a–z); Numeric values (0–9); '-' – Hyphen; '.' – Period; '/' – Slash; '#' – Number Sign; ' ' – Space	Student's Mailing Street Address Even when it's not required, it is preferred for all registrations. Street addresses will help match student data. Addresses are not shared externally unless a student indicates "Yes" to Student Search Service® on test day.	Shared via Clever when available
MAILING STREET ADDRESS 2	50	No	Alpha values (A–Z, a–z); Numeric values (0–9); '-' – Hyphen; '.' – Period; '/' – Slash (valid for PSAT/NMSQT and SAT only); '#' – Number Sign; ' ' – Space	Student's Mailing Street Address This field is not required, and is reported for SAT registrations only. Street addresses will help match student data. Addresses are not shared externally unless a student indicates "Yes" to Student Search Service on test day.	Not used by Clever; addresses are limited to one line

## FIELD-LEVEL SPECIFICATIONS

FIELD NAME	MAXIMUM LENGTH	REQUIRED FIELD?	VALID VALUES	NOTES	IF USING CLEVER
MAILING CITY	50	Yes for SAT No for PSAT 8/9, PSAT 10, PSAT/NMSQT	Alpha values (A–Z, a–z); ‘-’ – Hyphen; ‘.’ – Period; ‘ ’ – Space; ‘#’ – Number Sign	Student’s Mailing City Name Even when it’s not required, it is preferred for all registrations. If this field is populated for PSAT 8/9, PSAT 10, or PSAT/NMSQT registrations, it may be truncated to 15 characters in data reports.	Shared via Clever when available
MAILING STATE ABBREVIATION	2	Yes for SAT No for PSAT 8/9, PSAT 10, PSAT/NMSQT	Valid alpha state code	Student’s Mailing State Abbreviation Even when it’s not required, it is preferred for all registrations.	Shared via Clever when available
MAILING ZIP CODE	10	Yes for SAT No for PSAT 8/9, PSAT 10, PSAT/NMSQT	U.S. zip codes Numeric values (0–9); No Dashes; 5 or 9 Digits (##### or #####); International Postal Codes; Alpha values (A–Z, a–z); Numeric values (0–9); ‘-’ – Hyphen; ‘/’ – Slash; ‘ ’ – Space	Student’s Postal Code Even when it’s not required, it is preferred for all registrations to aid matching. If fewer than 5 or 9 numbers provided for U.S. addresses, system will fill with leading zeros.	Shared via Clever when available
MAILING COUNTRY CODE	2	No	Valid country code	Student’s two character mailing country code While this field is optional, it is preferred to aid matching.	Not available
TELEPHONE NUMBER	15	No	Numeric values (0–9); No ‘-’ or ‘()’ or ‘+’; No spaces	Student’s telephone number	Not available
SOCIAL SECURITY NUMBER	9	No	Numeric values (0–9) No dashes	Student’s Social Security number Please provide ONLY if this is your unique student identifier needed to match back to your systems.	Not available
EMAIL ADDRESS	50	No	Alpha values (A–Z, a–z); Numeric values (0–9); Special character: !#\$%*+,-/=/?^_`{ } No embedded spaces; Must contain ‘@’ and “.”	Student’s email address	Shared via Clever when available

## FIELD-LEVEL SPECIFICATIONS

FIELD NAME	MAXIMUM LENGTH	REQUIRED FIELD?	VALID VALUES	NOTES	IF USING CLEVER
STUDENT ID NUMBER	30	Yes for some SAT (see Note)  No for PSAT 8/9, PSAT 10, PSAT/NMSQT	Alpha values (A–Z, a–z); Numeric values (0–9); No embedded spaces	Education student ID number, such as State ID, District ID, or School ID.  Including Student ID will improve the ability to match the student with existing records, benefiting you and your students. Values greater than 15 characters may not be included in College Board reports. The last four digits are printed on Pre-ID label.  SAT School Day contracts may require Student ID.	Autopopulated with SIS ID of student shared with Clever  Student ID is required for Clever Uploads.
TYPE OF STUDENT ID	1	No	1 = State 2 = District 3 = School	Type of Student ID provided in prior field, if applicable.  If not indicated, and Student ID number provided, 1 will be defaulted if uploading organization is a state; 2 will be defaulted if uploading organization is a district; 3 will be defaulted if uploading organization is a school.	Auto-populated as “2” for District
FREE AND REDUCED LUNCH	1	No	Y, y = Yes N, n = No	Student Demographic Flag.  Not reported back at this time, but maybe reported back in the future as part of new data initiatives.	Not available via Clever
SAT TEST CENTER	5	Yes for some SAT (see Notes)	Numeric values (0–9)	This field should only be used by schools sending students to test at sites other than their own school.	Not available via Clever; if required, add these data to your request after it is uploaded.
SORT GROUP	10	No	Alpha values (A–Z, a–z); Numeric values (0–9); ' ' – Space; '/' – Slash; '-' – Hyphen; '.' – Period; '#' – Number Sign; '()' – Parentheses; ' – Apostrophe	Used for Pre-ID labels only.  If not populated, Pre-ID labels will be sorted by student last name for each grade in each AI Code. Use this field to determine how labels should be printed to facilitate distribution. Sorting will be done numerically, then alphabetically.  Examples of use include teacher name or room number.  Printed on Pre-ID label.	Not available; if desired, add these data to your request after it is uploaded.

## Log Files—Additional Columns

Following request validation in Bulk Registration, a log file that details data validation errors and warnings will be available for viewing. Records with errors will not be processed. Warnings indicate potential problems that should be checked before the file is submitted but do not prevent processing. The log file will contain your original file, plus nine additional columns that contain status information to help you locate and correct issues in your data and determine the record's fulfillment status. The additional columns are described in the table below.

Tips on correcting errors and warnings:

- ▶ You may make changes in the log file and upload it as a replacement file for the same request. The additional columns do not need to be removed.
- ▶ Alternatively, you may view and fix errors and warnings in the Bulk Registration tool.
- ▶ To help maintain data consistency and integrity, be sure to fix data at the source where possible, such as in your student information system (SIS).
- ▶ If you used Clever to create your request, you may want to log in to your Clever account and review your sharing rules. Allow changes to sync before selecting the replacement file option in the Bulk Registration tool. Click on the Clever option to create a replacement request.

**Note:** When using your log file to create a replacement file in Excel, be aware that Excel may apply a general number format to your data causing leading zeros in number codes to be dropped. If Date of Birth, Grade, Mailing Zip Code, or Student ID Number fields contain leading zeros, you will need to follow special steps to retain leading zeros when opening your log or your original file.

FIELD NAME	DESCRIPTION
VALIDATION STATUS	This is the status of each record. The three possible statuses are: Passed (i.e., no errors or warnings), Passed w/Warnings (i.e., no errors, one or more warnings), and Failed (i.e., one or more errors).
TOTAL NUMBER OF ERRORS	This is the total number of errors generated for the record during the validation.
ERROR DESCRIPTION	This contains up to the first five errors for the record. When there are more than five errors for a record, it will say "more..." at the end. For details on validation rules, see below.
TOTAL NUMBER OF WARNINGS	This is the total number of warnings generated for the record during the validation.
WARNING DESCRIPTION	This contains up to the first five warnings for the record. When there are more than five warnings for a record, it will say "more..." at the end. For details on validation rules, see below.
PSAT 8/9 FULFILLMENT STATUS	This contains the PSAT 8/9 fulfillment status for the record. <ul style="list-style-type: none"> <li>• Records that are not PSAT 8/9 records will have "N/A."</li> <li>• Prior to fulfillment, PSAT 8/9 records will either be "Pending Fulfillment" or "Will Not Be Fulfilled," depending on whether the record contains errors that will prevent it from being fulfilled.</li> <li>• After fulfillment, PSAT 8/9 records will have a status of either "In Fulfillment" or "Not Fulfilled."</li> </ul>
PSAT 10 FULFILLMENT STATUS	This contains the PSAT 10 fulfillment status for the record. <ul style="list-style-type: none"> <li>• Records that are not PSAT 10 records will have "N/A."</li> <li>• Prior to fulfillment, PSAT 10 records will either be "Pending Fulfillment" or "Will Not Be Fulfilled," depending on whether the record contains errors that will prevent it from being fulfilled.</li> <li>• After fulfillment, PSAT 10 records will have a status of either "In Fulfillment" or "Not Fulfilled."</li> </ul>

PSAT/NMSQT FULFILLMENT STATUS	<p>This contains the PSAT/NMSQT fulfillment status for the record.</p> <ul style="list-style-type: none"> <li>Records that are not PSAT/NMSQT records will have "N/A."</li> <li>Prior to fulfillment, PSAT/NMSQT records will either be "Pending Fulfillment" or "Will Not Be Fulfilled," depending on whether the record contains errors that will prevent it from being fulfilled.</li> <li>After fulfillment, PSAT/NMSQT records will have a status of either "In Fulfillment" or "Not Fulfilled."</li> </ul>
SAT FULFILLMENT STATUS	<p>This contains the SAT fulfillment status for the record. The fulfillment status will be updated on a nightly basis.</p> <ul style="list-style-type: none"> <li>Records that are not SAT records will have "N/A."</li> <li>Prior to fulfillment, SAT records will either be "Pending Fulfillment" or "Will Not Be Fulfilled," depending on whether the record contains errors that will prevent it from being fulfilled.</li> <li>After fulfillment, an SAT record will be "Not Fulfilled" if it contained an error that prevented it from being fulfilled. A record that was successfully fulfilled will have a status that reflects where it is in the SAT Registration process, either "In Fulfillment," "Registration Pending," or "Registration Complete."</li> </ul>

## Field-Level Validation Error Messages

**Note:** The field name will be inserted in front of the error message (e.g., AI Code: Required Field). Records with errors will not be processed.

FIELD NAME	ERROR MESSAGE	VALIDATION RULES
Multiple Fields	Duplicate record	More than one record contains the exact same information for a student for a specific event.
All Fields	Field length greater than maximum length	Field exceeds maximum length.
All Fields	Field length less than maximum length	Field does not meet minimum length.
All Fields	Invalid value	Data contain invalid characters.
All Fields	Required field	Field is required, but is not populated.
AI Code	AI code not recognized	AI Code must exist and status must be active.
AI Code	AI code is not in the contract.	The Organization ID corresponding to the AI Code must be either (1) the same as the submitting Organization ID, or (2) must be in the organization's contract hierarchy (e.g., district or state).
PSAT 8/9 Test Administration Indicator	A PSAT 8/9 event was not selected for this bulk registration file	If equal to "Y," then Bulk Registration event for PSAT 8/9 program must be selected.
PSAT 8/9 Test Administration Indicator	At least one Test Administration is required	The PSAT 8/9 Test Administration Indicator, PSAT 10 Administration Indicator, PSAT/NMSQT Test Administration Indicator, or SAT Test Administration Indicator, or a combination thereof, must equal "Y."
PSAT 10 Test Administration Indicator	A PSAT 10 event was not selected for this bulk registration file	If equal to "Y," then Bulk Registration event for PSAT 10 program must be selected.
PSAT 10 Test Administration Indicator	At least one Test Administration is required	The PSAT 8/9 Test Administration Indicator, PSAT 10 Administration Indicator, PSAT/NMSQT Test Administration Indicator, or SAT Test Administration Indicator, or a combination thereof, must equal "Y."
PSAT 10 Test Administration Indicator	PSAT 10 and PSAT/NMSQT were both selected for the same student	A student may not be registered for both PSAT/NMSQT and PSAT 10.

FIELD NAME	ERROR MESSAGE	VALIDATION RULES
PSAT/NMSQT Test Administration Indicator	A PSAT/NMSQT event was not selected for this bulk registration file	If equal to "Y," then Bulk Registration event for PSAT/NMSQT program must be selected.
PSAT/NMSQT Test Administration Indicator	At least one Test Administration is required	The PSAT 8/9 Test Administration Indicator, PSAT 10 Administration Indicator, PSAT/NMSQT Test Administration Indicator, or SAT Test Administration Indicator, or a combination thereof, must equal "Y."
PSAT/NMSQT Test Administration Indicator	PSAT 10 and PSAT/NMSQT were both selected for the same student	A student may not be registered for both PSAT/NMSQT and PSAT 10.
SAT Test Administrator Indicator	An SAT event was not selected for this Bulk Registration file	If equal to "Y," then Bulk Registration event for SAT program must be selected.
SAT Test Administrator Indicator	At least one Test Administration is required	The PSAT 8/9 Test Administration Indicator, PSAT 10 Administration Indicator, PSAT/NMSQT Test Administration Indicator, or SAT Test Administration Indicator, or a combination thereof, must equal "Y."
Date of Birth	Invalid value	Must be a valid date and not equal to the current or a future date. Date must be a minimum of seven characters and not contain special characters. To convert mm/dd/yyyy to mmdyyy in Excel, you may want to use the TEXT formula.
Date of Birth	Student is younger than the minimum age for the indicated assessment	The minimum age for SAT School Day is 10 years old.
Grade	Student grade or AI is not covered by contract	The student's grade or AI is not covered by contract.
Mailing State	Invalid value	Must be blank or must equal a valid, active State Code.
Mailing Zip Code	Invalid value	If Country Code equals "US" or is blank, then must be blank, 5, or 9 digits. Valid values are numeric only (0–9).
Mailing Zip Code	Invalid value	If Country Code is not "US," then cannot exceed 10 digits. Valid values can be A–Z, a–z, 0–9, -, /, space, or blank.
Mailing Country Code	Invalid value	Must equal a valid, active Country Code or be blank. (If blank, defaults to "US.")
Student ID Number	Required field	If student is covered under an SAT contract that requires student ID, then Student ID must be provided.
Student ID Number	Duplicate Value	Student ID must be unique for a student. Different students cannot have same Student ID
SAT Test Center	The Test Center ID is not valid for this school.	Must be a valid Test Center ID for the AI Code.
SSN	Duplicate Value	SSN must be unique for a student. Different students cannot have the same SSN.

## Field-Level Validation Warning Messages

**Note:** The field name will be inserted in front of the warning message (e.g., Date of Birth: Student is younger than expected for the indicated grade). Warnings are informational and will not prevent processing of records.

FIELD NAME	WARNING MESSAGE	VALIDATION RULES
Student Last Name	Invalid characters were removed	Strip invalid characters.
Student Last Name	Data were truncated to maximum length	Truncate to maximum length.
Student First Name	Invalid characters were removed	Strip invalid characters.
Student First Name	Data were truncated to maximum length	Truncate to maximum length.
Date of Birth	Student is younger than expected for the indicated grade	The age of the student on October 31 of the current school year should be within the expected age range, as outlined here: <ul style="list-style-type: none"> <li>Grade 6: 10.8–12.2</li> <li>Grade 7: 11.8–13.2</li> <li>Grade 8: 12.8–14.2</li> <li>Grade 9: 13.8–15.2</li> <li>Grade 10: 14.8–16.2</li> <li>Grade 11: 15.8–17.2</li> <li>Grade 12: 16.8–18.2</li> </ul>
